While Peter was still speaking, behold, a bright cloud cast a shadow over them. Then from the cloud came a voice that said, "This is my beloved Son, with whom I am well pleased;

listen to him.

What does the Father's Son say?

This is my body and blood.
This **is** my body and blood.
This is **my** body and blood.
This is my **body and blood**.

and

"Amen, amen, I say to you, **unless you eat the flesh of the Son of Man and drink his blood, you do not have life within you.** Whoever eats my flesh and drinks my blood has eternal life, and I will raise him on the last day."

It's not over till the fat lady sings:

A worried woman went to her gynecologist and said:

'Doctor, I have a serious problem and desperately need your help! My baby is not even 1 yr. old and I'm pregnant again. I don't want kids so close together.'

So the doctor said: 'Ok, and what do you want me to do?'

She said: 'I want you to end my pregnancy, and I'm counting on your help with this.'

The doctor thought for a little, and after some silence he said to the lady: 'I think I have a better solution for your problem. It's less dangerous for you too.'

She smiled, thinking that the doctor was going to accept her request.

Then he continued: 'You see, in order for you not to have to take care of 2 babies at the same time, let's kill the one in your arms. This way, you could rest some before the other one is born. If we're going to kill one of them, it doesn't matter which one it is. There would be no risk for your body if you chose the one in your arms.'

The lady was horrified and said: 'No doctor! How terrible! It's a crime to kill a child!'

'I agree', the doctor replied. 'But you seemed to be ok with it, so I thought maybe that was the best solution. The doctor smiled, realizing that he had made his point.'

He convinced the mom that there is no difference in killing a child that's already been born and one that's still in the womb. The crime is the same!
